Database objective

Main objective

- ? Identify, for occupational practitioners, the importance of prevention of addictions among the various workplace and public health priorities
- ? Evaluate the opinions on questions concerning addictive habits
- ? Identify the occupational practitioners practices : documentation of the Medical file(case), the use of questionnaires, knowledge and practices of short interventions, involvement in prevention
- ? Evaluate the requests and the participation of occupational practitioners in collective prevention approaches in the company
- ? Explore certain interrelations between occupational practitioners and general practitioners

Inclusion criteria

occupational practitioners exercising in metropolitan France

Population type

Age

Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)

Population covered

General population

Gender

Male
Woman

Geography area

National

Detail of the geography area

France métropolitaine

Data collection

Dates

Date of first collection (YYYY or MM/YYYY)

2009

Size of the database

Size of the database (number of individuals)

[500-1000[individuals

Details of the number of individuals	750
Data	
Database activity	Data collection completed
Type of data collected	Declarative data
Declarative data (detail)	Phone interview
Presence of a biobank	No
Health parameters studied	Others
Other (detail)	prevention
Procedures	
Data collection method	interviews conducted by telephone
Participant monitoring	No
Links to administrative sources	No
Promotion and access	
Promotion	
Access	
Terms of data access (charter for data provision, format of data, availability delay)	Publication in the Inpes health studies collection in 2012. Distribution of the results with the condition of mentioning the sources Online access via the Inpes website to the entire work and chapters Access to the database from 2011, subject to agreements.
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
