Population covered	General population
Gender	Male Woman
Geography area	National
Detail of the geography area	France
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	06/2011
Date of last collection (YYYY or MM/YYYY)	02/2012
Size of the database	
Size of the database (number of individuals)	[1000-10 000[individuals
Details of the number of individuals	2600
Data	
Database activity	Data collection completed
Type of data collected	Declarative data
Declarative data (detail)	Paper self-questionnaire
Presence of a biobank	No
Health parameters studied	Health care consumption and services Quality of life/health perception Others
Care consumption (detail)	Hospitalization Medical/paramedical consultation Medicines consumption

Other (detail)

feeling of information, perception of health topics,
sources of information, activity limitations

Procedures

Data collection method online self-administered survey

Participant monitoring No

Links to administrative sources No

Promotion and access

Promotion

Access

Terms of data access (charter
for data provision, format of
data, availability delay) no possibility for the moment

Access to aggregated data Access on specific project only

Access to individual data Access on specific project only
