

ENa-CAARUD - National survey in centres for accommodation and assistance with harm reduction for drug users

Head :Cadet-Taïrou Agnès

Last update : 02/04/2021 | Version : 5 | ID : 1206

General	
Identification	
Detailed name	National survey in centres for accommodation and assistance with harm reduction for drug users
Sign or acronym	ENa-CAARUD
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	CNIL
General Aspects	
Medical area	Infectious diseases
Study in connection with Covid-19	No
Health determinants	Addictions Lifestyle and behavior Social and psychosocial factors
Scientific investigator(s) (Contact)	
Name of the director	Cadet-Taïrou
Surname	Agnès
Address	69 rue de Varenne, 75007 Paris
Phone	+ 33 (0)1 41 62 77 16
Email	Agnes.Cadet@ofdt.fr
Organization	OFDT
Collaborations	
Funding	

Funding status	Public
Details	OFTD
Governance of the database	
Sponsor(s) or organisation(s) responsible	OFTD
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Exhaustive except in case of refusal
Database objective	
Main objective	Tool integrated to the information system on drug users (including general population surveys, the information system regarding treated users, the surveillance system TREND: Recent Trends and New Drugs, ...) By monitoring all of the information systems, we can observe the trends in terms of users' situation, practices, use consequences, ... Reception and harm reduction support centres for drug users (CAARUDs) welcome a high number of precarious users or who are not yet under care within the health system. They have mobile units who go and meet the users and squat intervention teams. This data is therefore used to follow up non-recreational, active and mostly precarious drug users.
Inclusion criteria	Drug users present in the CAARUD at the time of

the survey

Population type

Age
 Adolescence (13 to 18 years)
 Adulthood (19 to 24 years)
 Adulthood (25 to 44 years)
 Adulthood (45 to 64 years)
 Elderly (65 to 79 years)

Population covered General population

Pathology

Gender Male
 Woman

Geography area National

Detail of the geography area France

Data collection

Dates

Date of first collection (YYYY or MM/YYYY) 2006

Date of last collection (YYYY or MM/YYYY) 2012

Size of the database

Size of the database (number of individuals) [1000-10 000[individuals

Details of the number of individuals 3 000

Data

Database activity Current data collection

Type of data collected Declarative data

Declarative data (detail) Face to face interview

Presence of a biobank No

Health parameters studied Health event/morbidity
 Health care consumption and services
 Others

Care consumption (detail)	Hospitalization Medical/paramedical consultation
Other (detail)	Prevention, social health inequalities
Procedures	
Data collection method	Exhaustive collection over a given week. 100% of CAARUDs in activity are obliged to take part in the survey. Those centres acting solely in party settings and who were not called out during the collection week are not represented (marginal). The user response rate, after excluding duplications, suspected duplications and invalid questionnaires, is estimated to be 72.8%.
Participant monitoring	No
Followed pathology	
Links to administrative sources	No
Promotion and access
