

EUROPOP - European programme on the relationship between occupational risks and premature births

Head :Ancel Pierre-Yves, U953 - Unité de recherche épidémiologique en santé périnatale et santé des femmes et des enfants

Last update : 09/05/2017 | Version : 1 | ID : 7626

General

Identification

Detailed name	European programme on the relationship between occupational risks and premature births
---------------	--

Sign or acronym	EUROPOP
-----------------	---------

CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	Autorisation CNIL
--	-------------------

General Aspects

Health determinants	Occupation
---------------------	------------

Keywords	work, Europe, risk, pregnancy
----------	-------------------------------

Scientific investigator(s) (Contact)

Name of the director	Ancel
----------------------	-------

Surname	Pierre-Yves
---------	-------------

Address	Hopital Saint Vincent de Paul- 82 avenue Denfert Rochereau- Bâtiment Lelong - 75014 Paris
---------	--

Phone	+33 (0)1 56 01 83 63
-------	----------------------

Email	pierre-yves.ancel@inserm.fr
-------	-----------------------------

Unit	U953 - Unité de recherche épidémiologique en santé périnatale et santé des femmes et des enfants
------	--

Organization	Institut national de la santé et de la recherche médicale -
--------------	--

Collaborations

Funding	
Funding status	Public
Details	Union européenne
Governance of the database	
Sponsor(s) or organisation(s) responsible	Institut national de la santé et de la recherche médicale - Inserm
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Case control study
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Case: women who were working after the first 3 months of pregnancy
Database objective	
Main objective	Consider the effect of particular work conditions on premature birth.
Inclusion criteria	woman - adult - childbirth 22-36 weeks amenorrhea
Population type	
Age	Newborns (birth to 28 days) Infant (28 days to 2 years)
Population covered	General population
Gender	Male Woman
Geography area	International

Detail of the geography area	16 countries in Europe (including France)
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	1994
Date of last collection (YYYY or MM/YYYY)	1997
Size of the database	
Size of the database (number of individuals)	[1000-10 000[individuals
Details of the number of individuals	7719 sujets - 2938 cas - 4781 témoins
Data	
Database activity	Data collection completed
Type of data collected	Declarative data
Declarative data (detail)	Paper self-questionnaire Face to face interview
Presence of a biobank	No
Health parameters studied	Health event/morbidity Health event/mortality
Procedures	
Data collection method	60 voluntary maternity hospitals
Participant monitoring	No
Links to administrative sources	No
Promotion and access
