Organization	CNRS
Collaborations	
Funding	
Funding status	Public
Details	ANRS
Governance of the database	
Sponsor(s) or organisation(s) responsible	CNRS
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Random selection based on telephone directories from two départements in the French West Indies, as well as data from land registry maps and aerial photographs, checked in situ in French Guiana.
Database objective	
Main objective	The ACSAG survey aims to provide information on the populations' sexual behaviour, their knowledge and attitudes regarding HIV, as well as their preventative behaviours towards HIV-associated

risks. It may also identify the differences in behaviour towards HIV/AIDS across the three departments.

Inclusion criteria	- Between 18 and 69 years old; - Residing in one of the départements included in the survey.
Population type	
Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years)
Population covered	General population
Gender	Male Woman
Geography area	Regional
French regions covered by the database	Guadeloupe Guyane Martinique
Detail of the geography area	French Guiana, Martinique, Guadeloupe
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	1992
Size of the database	
Size of the database (number of individuals)	[1000-10 000[individuals
Details of the number of individuals	2,634
Data	
Database activity	Data collection completed
Type of data collected	Declarative data
Declarative data (detail)	Face to face interview
Details of collected declarative	Sexual activity characteristics, level of knowledge,

data	condom use.
Presence of a biobank	No
Health parameters studied	Health event/morbidity Others
Other (detail)	Sexual behaviour.
Procedures	
Data collection method	Survey by questionnaire which?drawn up by our team in conjunction with the ACSF national survey questionnaire? was conducted by researchers that were recruited and trained to this effect.
Participant monitoring	No
Links to administrative sources	No
Promotion and access	
Promotion	
Access	
Terms of data access (charter for data provision, format of data, availability delay)	Data kept by the Mission des Archives Nationales (National Archives Service). Can be consulted via the link: https://www.siv.archives-nationales.culture.gouv.fr/siv/rechercheconsultation/consultation/ir/consultationIR.action;jsessionid=FB5D2D08CA815264EDE38B834977B8C9?uId=&consIr=&irId=FRAN_IR_026647&frontItr=&uSeinIR=false
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
