| Database objective                        |                                                                                                                                                                                                                                                                                                                                                                   |
| Main objective                            | The provision of data to the regional health insurance funds and the national fund for the RSI, from chains of production in order to draw out pertinent information regarding risk management, preventive medicine, health-related and social action, control of the evolution of financial balance expenses of the system and assistance in preparing controls. |
| Inclusion criteria                        | All French members of the Régime Social des professions Indépendantes (RSI). The RSI is a social security system that provides health insurance to all people who personally perform an artisanal, commercial, industrial or independent activity, as well as some managers or partners of companies.                                                             |
