

- Cross-sectional study on migrants' paths and profiles

Head :Lhommeau Bertrand, Bureau Jeunesse, famille

Last update : 10/20/2017 | Version : 1 | ID : 73114

General	
Identification	
Detailed name	Cross-sectional study on migrants' paths and profiles
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	CNIL
General Aspects	
Medical area	General practice
Health determinants	Healthcare system and access to health care services Lifestyle and behavior Occupation Social and psychosocial factors
Keywords	route, migrant, profile, employment, living conditions, health
Scientific investigator(s) (Contact)	
Name of the director	Lhommeau
Surname	Bertrand
Phone	+33 (0)1.40.56.85.35
Email	Bertrand.LHOMMEAU@sante.gouv.fr
Unit	Bureau Jeunesse, famille
Organization	DREES
Collaborations	
Funding	
Funding status	Public

Details	DREES
Governance of the database	
Sponsor(s) or organisation(s) responsible	DREES
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	An administrative base or a register
Base or register (detail)	ANAEM management databases
Database recruitment is made on the basis of:	Another treatment or procedure
Database recruitment is carried out as part of an interventional study	No
Database objective	
Main objective	This survey is intended to better understand the route, different trajectories (residential, professional, family) and use of social services of individuals who come to obtain a residence permit of at least one year in France and having a vocation to settle in France with stability. It also explores the vision and expectations that these migrants have for France and how these elements influence their trajectories in France. It specifically deals with understanding the migratory plan, its evolution over time, its individual or familial character, how it is modelled by institutions and the administrative categories with which the migrant is confronted. This allows for questions about the articulation between the migratory plan and the integration process. The two-part interview allows for introducing temporality into the understanding of this process, and to observe any connections

between the evolution of the migratory plan and the living conditions encountered over the course of the first year with a residential permit.

Inclusion criteria	Foreign individuals of legal age (18 years or older) accepted by the Agence nationale de l'accueil des étrangers et des migrations (ANAEM) between June and October 2006 who were asked to sign a reception and integration contract (CAI). This survey deals with individuals eligible for a CAI, i.e. - spouses of French citizens - other relatives of French citizens - beneficiaries of the family group - refugees or members of their family - individuals authorised due to personal and family connections in France (VPF 12 bis 7).
Population type	
Age	Adulthood (19 to 24 years) Adulthood (25 to 44 years) Adulthood (45 to 64 years) Elderly (65 to 79 years) Great age (80 years and more)
Population covered	General population
Pathology	
Gender	Male Woman
Geography area	National
Detail of the geography area	France
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	2006
Date of last collection (YYYY or MM/YYYY)	2007
Size of the database	
Size of the database (number of individuals)	[1000-10 000[individuals
Details of the number of	6 280

individuals

Data

Database activity Data collection completed

Type of data collected Declarative data

Declarative data (detail) Face to face interview

Details of collected declarative data

>- the migratory route before arriving in France and knowledge of France - the living conditions before migration (employment, housing, etc.) - the migratory plan - the arrival in France and the welcoming apparatus - housing (previous and current) - family history (parents, children, etc.) - current living conditions (language, training, professional activity, income and resources - details of the types of resources and the total amount) - social life (support network, connection to the country of origin - representations and values The questionnaire for the second part addresses the following topics: - housing from a comfort perspective - income (specifically, spouse's salary) - family history - training, languages, autonomy in French society - employment (hours, salary, working conditions, etc.) - access to benefits - health, use and forfeiture of care - social life, social relationships and connection to the country of origin - cultural practices, leisure, religion - discrimination experienced - plans in France

Presence of a biobank No

Health parameters studied

Health event/morbidity
Health care consumption and services
Quality of life/health perception

Care consumption (detail) Medical/paramedical consultation

Procedures

Data collection method CAPI

Participant monitoring No

Followed pathology

Links to administrative sources No

Access

Terms of data access (charter for data provision, format of data, availability delay)

Available formats: The data are available in SAS, SPSS and STATA formats.

Confidentiality statement: To obtain the data, you must agree not to transfer the data, in any way, to a third party.

Special permissions: The "Production and Research" files (FPR) are subject to specific rules for use and should be destroyed at the end of the research for which they have been shared.

Restrictions for use: The data may only be used for research purposes. Any other use, commercial or otherwise, is strictly prohibited.

Reference requirement: The source of the data received must appear in the publications supported by these data (including footnotes, bibliographic references, table legends).

Submission requirement: In order to provide the producing organisations with essential information regarding the use of the archived resources, the data users are required to send the ADISP-CMH, if possible in electronic format, an abstract or a reprint of their publication(s), indicating which studies were used in an accompanying letter.

Conditions of access: Different access procedures according to the requesting party's institutional affiliation and status. In all cases, the approval of the request at the end of instruction leads to the signature of an individual agreement.

Liability disclaimer: The producer and sharer of the data are not responsible for interpretations or deductions made using the data.

Contact: ADISP-CMH = diffusion.adisp@ens.fr
