

PLEIAD - Descriptive epidemiological study in nursing home

Head :Crochard Anne

Last update : 01/01/2020 | Version : 1 | ID : 179

General	
Identification	
Detailed name	Descriptive epidemiological study in nursing home
Sign or acronym	PLEIAD
CNIL registration number, number and date of CPP agreement, AFSSAPS (French Health Products Safety Agency) authorisation	1339091
General Aspects	
Medical area	Geriatrics Neurology
Others (details)	alzheimer
Keywords	Nursing home, hospitalizations, neuroleptics
Scientific investigator(s) (Contact)	
Name of the director	Crochard
Surname	Anne
Address	37-45 Quai du Président Roosevelt 92445 Issy-les-Moulineaux
Phone	+33 (0)1 79 41 28 51
Email	acro@lundbeck.com
Organization	Lundbeck
Collaborations	
Funding	
Funding status	Private
Details	Laboratoire Lundbeck SAS

Governance of the database	
Sponsor(s) or organisation(s) responsible	Lundbeck SAS
Organisation status	Private
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Not-repeated cross-sectional studies (except case control studies)
Database recruitment is carried out by an intermediary	A population file
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Selection of the nursing home: Information on the study and an invitation to participate was sent by post to all eligible nursing home coordinating geriatricians and in duplicate to the manager of the nursing home. Selection of patients: Each participating nursing home coordinating geriatrician was expected to include the last 8 patients (after study materials reception date) entering or leaving the nursing home (either temporarily or definitively, excluding death) in the last 3 months.
Database objective	
Main objective	To describe the population of nursing home residents in France and in particular to quantify transitions into or out of the nursing home and to describe the characteristics of the nursing home residents at admission and discharge.
Inclusion criteria	To be eligible, the residents had to have been admitted to the nursing home for the first time (from home, hospital or another nursing home) or following a hospitalization, or had to have been temporarily or permanently discharged from the nursing home (to home, hospital or another nursing

home) in the previous three months.

Population type	
Age	Elderly (65 to 79 years) Great age (80 years and more)
Population covered	General population
Gender	Male Woman
Geography area	National
Detail of the geography area	All private nursing home with 50 or more beds
Data collection	
Dates	
Date of first collection (YYYY or MM/YYYY)	2010
Date of last collection (YYYY or MM/YYYY)	2010
Size of the database	
Size of the database (number of individuals)	[1000-10 000[individuals
Details of the number of individuals	2231
Data	
Database activity	Data collection completed
Type of data collected	Clinical data Administrative data
Clinical data (detail)	Direct physical measures
Declarative data (detail)	Paper self-questionnaire Face to face interview
Administrative data (detail)	patients under tutorship, ...
Presence of a biobank	No
Health parameters studied	Health event/morbidity Health event/mortality

Health care consumption and services

Care consumption (detail)	Hospitalization Medicines consumption
Procedures	
Data collection method	The data will be collected using 2 paper questionnaires completed by the physician. The purpose of the nursing home questionnaire will be to provide data on transitions into or out of the nursing home and on the organization of the nursing home. The aim of the resident questionnaires was to describe individual residents moving into or out of the nursing home.
Participant monitoring	No
Links to administrative sources	No
Promotion and access	
Promotion	
Access	
Terms of data access (charter for data provision, format of data, availability delay)	Publication in progress
Access to aggregated data	Access on specific project only
Access to individual data	Access on specific project only
