-------	----------------------

Email	falissard_b@wanadoo.fr
-------	------------------------

Unit	CESP
------	------

Organization	National Institute of Health and Medical Research
--------------	---

Name of the director	Berthoz
----------------------	---------

Surname	Sylvie
---------	--------

Email	sylvie.berthoz@imm.fr
-------	-----------------------

Organization	Montsouris Clinical Institute
Name of the director	LOAS
Surname	Gwenolé
Address	place Victor-Pauchet, 80000 Amiens, France
Phone	+33 (0)3 22 53 46 44
Email	shu.g.loas@ch-pinel.fr
Organization	Pinel Hospital, Amiens University Hospital
Collaborations	
Funding	
Funding status	Public
Details	Public
Governance of the database	
Sponsor(s) or organisation(s) responsible	INSERM - National Institute of Health and Medical Research
Organisation status	Public
Additional contact	
Main features	
Type of database	
Type of database	Study databases
Study databases (details)	Case control study
Database recruitment is carried out by an intermediary	A selection of health institutions and services
Database recruitment is carried out as part of an interventional study	No
Additional information regarding sample selection.	Schizophrenic subjects were recruited from university hospital adult psychiatry services in Amiens and Lille, as well as patient recruited from the non-sectoral, short-stay psychology unit in Amiens University Hospital and presenting with an affective, neurotic or personality disorder.

Diagnoses made by the psychiatrist according to ICD-10 diagnostic criteria using research diagnostic criteria.

Database objective

Main objective To clarify the psychometric properties (validity, fidelity) of the French version of the TEPS and to confirm the deficit in schizophrenic subjects in relation to healthy subjects.

Inclusion criteria Schizophrenic subjects were recruited from university hospital adult psychiatry services in Amiens and Lille, as well as patients recruited from the non-sectoral, short-stay psychology unit in Amiens University Hospital, and presenting with an affective, neurotic or personality disorder. Diagnoses made by the psychiatrist according to ICD-10 diagnostic criteria using research diagnostic criteria. Exclusion criteria: addicted to or misusing alcohol or psychoactive substances; severe organic disease and poor understanding of French.

Population type

Age Adulthood (19 to 24 years)
Adulthood (25 to 44 years)
Adulthood (45 to 64 years)

Population covered Sick population

Gender Male
Woman

Geography area Regional

French regions covered by the database Nord - Pas-de-Calais Picardie

Detail of the geography area Northern France: Amiens, Lille

Data collection

Dates

Date of first collection (YYYY or MM/YYYY) 2007

Date of last collection (YYYY or MM/YYYY) 2011

Size of the database

Size of the database (number of individuals)	< 500 individuals
Details of the number of individuals	287
Data	
Database activity	Data collection completed
Type of data collected	Clinical data Declarative data Paraclinical data
Clinical data (detail)	Medical registration
Details of collected clinical data	18-item TEPS, 61-item revised Physical Scale (PAS); 41-item Social Anhedonia Scale (SAS); 14-item Snaith Hamilton Pleasure Scale (SHAPS); 21-item Beck Depression Inventory-II (BDI-II); Anticipatory PAS (PAS-ANT) and PAS consummatory (PAS-CONS) scales for student control groups.
Declarative data (detail)	Face to face interview
Presence of a biobank	No
Health parameters studied	Health event/morbidity Health care consumption and services
Care consumption (detail)	Medical/paramedical consultation Medicines consumption
Procedures	
Data collection method	All subjects completed the following questionnaires several days before discharge (for hospitalised patients) or at the end of the consultation (for outpatients).
Participant monitoring	No
Links to administrative sources	No
